RE: File No. 7064 – Start Up & Shut Down Irrigation Systems - Addendum No. 2

This addendum is comprised of:

1. Questions and Answers

The following questions were submitted and answered:

Question: Because the winterizations are going to be done so late this season, there is a potential that cold nights may cool the sidewalks enough so that the irrigation water freezes on the sidewalks while the winterization is being performed. If this were to occur, who is responsible for spreading ice-melt on the sidewalks?

Answer: *The City of Cambridge will be responsible for ensuring the sidewalks are safe*

Question: After thoroughly reading the bid specifications I have one request for clarification: Page 00800-2 states, "The Contractor is not permitted to subcontract any work as described in the Contract Documents." Pages 00311-1 through 00311-7 (MBE participation requirements) appear to only be relevant to contracts that involve subcontracting. If no subcontracting is permitted in this case....which, if any, of the 4 MBE forms on 00311-1 through 00311-7 are to be submitted with our bid?

Answer: *Pages 00311-1 through 00311-7 must be submitted with the general contractors bid as is stated in the bid documents. Instructions for successful completion can be found beginning on page 311-1.*

All other details remain the same.
